- Travel and stand by time rate: \$325/hour
- Price does not include travel time from Grande Prairie.
- Crews include: (2) 5-ton trucks and trailers, track hoe and/or skid steer with 2-man crew. Safety, H2S and First Aid certification are all current.
- Liners are to be clean and free of contaminants before proceeding to recycle. Contaminants include oil, chemicals, metal, drilling mud etc.

Rundle Recovers and Recycles

- Rundle Crews are **safe, competent and reliable**. We have developed techniques and efficient procedures to minimize our time on location and can be in and out in as little as a ½ day.
- Rundle Recycles its liners. We have sought out recycling partners in North America who will process the liner bundles we deliver to them. We are dedicated to help our clients to improve both their **sustainability** and **environmental stewardship**.

Rundle's Recovered Liners Are Recycled and Traceable

Customer Address

- Rundle has developed a system that tracks liners from their recovery on the job site to their delivery to the plastics recycler.
 - In house smart phone app captures data
 - Bar Code Tag for identifying and tracking each bundle from location to recycler. (Currently under testing)
- Rundle will work with your internal auditors or ESG sustainability auditors to ensure the integrity of Recycling and ESG Reporting.
- Rundle will provide quarterly and annual Client reports summarizing their liner recycling

Each Liner Bundle Recovered At Location is Tracked While in Rundle's Control.

5 Client Reporting

Quarterly and Annual Reports to Clients. Support to Clients for ESG reporting

4 Shipped To Recycler

Bundles are shipped to recycler. Shipping documents and bills of lading are generated identifying each bundle on the load. Recycler Receiving Report is reconciled to bill of lading.. Weight of bundle is recorded.

3 Liners are stored for Shipment

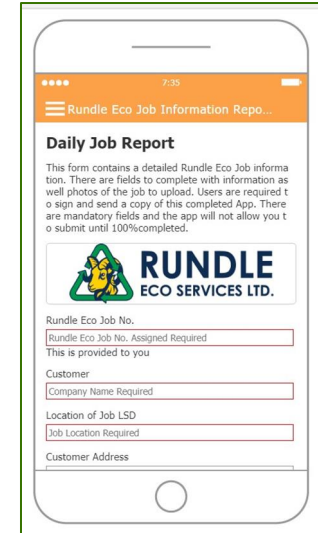

Liners are store in secured yards until shipment to recyclers. Bundles controlled in inventory system

2 Entered On App

Data about the job and the Liners bundles are collected digitally and entered into a smart phone apps, information and transferred to inventory system in the cloud.

1 Collection

Crews collect and bundle liners on location which are identified and assigned a bar code label (Dec 2020)
